

## BOMBSHELL ROCKS

### Generation Tranquilized

Burning Heart Recordw bring you *Generation Tranquilized*, a brand new full-length from Sweden's punkrock kings, **BOMBSHELL ROCKS**. With the original singer Marten Cedergran back on vocals, this hard-hitting and unbelievably catchy twelve-song album is bound to capture tons of new fans, and really reawaken lots of old ones.

The bands back-to-life single "Without Destination" (Panic & Action Oct 2014) and "Scars & Tattoos (Pirate Press Records 2013) ), gave the world a heads-up that these diehard Swedish punks had not lost a step and were in it for the long haul.

"Generation Tranquilized, 12 soon-to-be punkrock-hits, was recorded in Sound Lab Studios, and once again, old time friend of the band Mathias Farm (MILLENCOLIN) was at the helm.

*Generation Tranquilized* is Västerås' (Sweden) finest's fourth full-length and the first in over 10 years with the original lineup. This release shows **BOMBSHELL ROCKS** is indeed back in the game, reflecting on the history they've made over the last 20 years, and heading towards the future with a lineup that is more focused and dedicated than ever. The songwriting and sing-alongs here are nothing short of brilliant, and Burning Heart are extremely proud and excited to help this amazing band share it with the world; and even more special, in this, their 20th year together as a band.

### MARKETING / SELLING POINTS
